

EXE: WAR FOR NEW LAND

□ Build your own pledge!

Each item featured in the pledges above is also available as a separate add-on. After choosing your pledge, you can upgrade it with add-ons to get the exact rewards that you are looking for. Browse the list of add-ons below, as it also includes some **optional** items that are not included in the pledges.

After the campaign, you will get access to the Pledge Manager, where you will provide your shipping details and pay for the shipping based on your location. You will also be able to edit your pledge and add any additional rewards there.

Collector's Boxes add-ons presented below are divided into four factions. Each contains **eight oversized (200% scale!) spaceship miniatures**. Paint or display them to remind you of all the magnificent adventures experienced in the EXE universe both online and, now, offline.

New Land would be just a void without its people. Every pilot that embarks on the journey from their very first frigate to a capital ship brings a piece of their soul into the game. Similarly, each contribution that you make towards this campaign will make a lasting improvement toward the quality and richness of its contents.

▣ **Captain Benzie - Full Review** created by the EXE Online partner. See the game through the eyes of the avid player!

You begin by choosing a faction and start with limited territory, spaceships, and resources. Your goal is to grow your empire and acquire 10 Victory Points to get to the Verge of Ascendancy. Beware, as when you do, you will have to endure the ruthless final round to emerge victorious.

▣ **Explore** - Navigate your vessels to unexplored systems and claim the discovery rewards for charting new stars. By thoroughly scouting your surroundings you will identify the systems rich in asteroid belts, materials, and ideal spots to deploy structures.
